THE THREE RS: REDUCE, REUSE, RECYCLE

We all have a stake and a responsibility to do more with less. Adhering to the principles of REDUCE, REUSE, RECYCLE (in that order!), can help curb energy and raw material consumption in the face of growing demand on our natural resources. You can REDUCE packaging waste by purchasing items in bulk and looking for items with minimal packaging, made with recycled content. REDUCE unwanted “junk” mail by customizing your direct mail preferences at www.DMAchoice.org.

Find ways to REUSE or re-purpose things! There are many websites and social media outlets that provide excellent tools for turning your trash into someone else’s treasure. Invest in a refillable water bottle—it will save you money while reducing packaging waste, transportation fuel use, and air pollution! Remember your reusable bags when you visit your local grocery store or farmer’s market and RECYCLE everything you can! You can even earn recycling rewards at www.recyclebank.com.

Many private haulers (and a few municipalities) offer curbside recycling options to the majority of Muskegon County residents. Contact your waste hauler for details and be sure to follow their collection guidelines. When a household includes unacceptable items with recyclables, such as food waste refuse, broken glass, or pizza boxes, it can contaminate the entire load and your diligent efforts to recycle can end up in the trash.

**FLAG DISPOSAL**

Muskegon County Department of Veterans Affairs, Veteran Services Center  
165 E. Apple Ave., Suite 201, Muskegon  
**Phone:** (231) 724-7143  
The U.S. Flag Code specifies proper display etiquette as well as disposal guidelines. You can drop off any flag at any local VFW post. They work with the Boy Scouts of America to see that your flag is properly disposed. For more information about flag etiquette and disposal, or to find a VFW post near you, visit [www.vfw.org](http://www.vfw.org) and select Community--> Flag Etiquette. You can also drop-off your old stars and stripes to the Muskegon County Department of Veterans Affairs, Veteran Services Center.

**YARD WASTE**

Michigan law currently prohibits yard waste from disposal in municipal solid waste landfills. Yard waste is defined as: leaves, grass clippings, vegetable/garden debris and shrubbery, brush or tree trimmings less than 4 feet in length and 2 inches in diameter.

Contact your city or township office to ask whether they provide a yard waste drop-off location. Consider composting your yard waste as a free way to return nutrients to your soil or garden and make your own potting soil.

**MERCURY THERMOSTATS AND THERMOMETERS**

Many old thermostats contain about 3 grams of mercury per device. According to the Michigan Department of Environmental Quality, the improper disposal of mercury thermostats results in about 8% of the mercury released annually in the U.S., equal to about 9.6 tons. Make sure you dispose of your old mercury-containing thermostat properly, **NOT** with regular household trash. Once in the environment, it can transform into methyl mercury, which can be extremely harmful to human health.

Please contact your thermostat manufacturer to determine whether they have a mail-back program, or bring them to the Muskegon County Household Hazardous Waste facility.

**ANTIFREEZE**

Antifreeze contains ethylene glycol and should never be dumped on the ground or down the drain. It is toxic to humans, animals and aquatic life. In addition to the Muskegon County Household Hazardous Waste Program, you can take unwanted or used antifreeze to:

**FLUORESCENT LAMPS & CFLs**

Fluorescent lamps, including Compact Fluorescent Light bulbs, or “CFLs,” contain trace amounts of mercury. While they use 75% less energy, and last about 10 times longer than traditional incandescent bulbs, you should take care that they do not break and dispose of them safely. CFL bulbs can be recycled at any Home Depot or Lowe’s. Simply bring in your spent, unbroken CFLs to the store and ask an associate to point out the recycle container. **Note:** The Muskegon County Household Hazardous Waste Program also accepts CFLs and tubes.

**Batteries Plus Bulb**
5839 Harvey St., Norton Shores

**MEDICATION & SHARPS DISPOSAL**

The Muskegon Area Medication Disposal Program (MAMDP) is a collaboration of community organizations providing an outlet to safely dispose of unused, unwanted and expired medications. FDA and EPA no longer recommend flushing or landfilling medications due to environmental concerns about the effects on safe drinking water and the ecology of our watersheds. MAMDP partners offer collection events as well as an expanding network of daily disposal options. Visit mamdp.com for more information.

**DAILY DISPOSAL OPTIONS FOR CONTROLLED SUBSTANCES**

All law enforcement offices throughout Muskegon County have a drop box located just inside their front doors. Medications can be dropped off any time during their regular business hours, and without question. Please visit: mamdp.com for additional information about this program.

HOUSEHOLD HAZARDOUS WASTE DISPOSAL

Hazardous materials can be found in common household items such as cleaners, paint thinners, gasoline, motor oil, pesticides, fertilizers, and even Compact Fluorescent Light bulbs (CFLs). Once these items can no longer be used, they become Household Hazardous Waste (HHW), and it’s important to make sure they are disposed of properly to safeguard families, pets, and the environment. The Muskegon County Department of Public Works offers a free HHW program to Muskegon County residents. Please note that commercial and industrial waste is prohibited. Should you possess any of the following materials, the HHW program will dispose of them in a safe and responsible manner.

- Mercury or mercury-containing devices (i.e. Compact Fluorescent Light Bulbs and other fluorescent lamps, mercury thermometers, or thermostats, etc.)
- Petroleum products
- Antifreeze and other automotive fluids
- Pesticides
- Insecticides

- Herbicides
- Aerosol cans (containing hazardous materials)
- Alkaline batteries (we do not accept lead acid/ car batteries)
- Acids (i.e. muriatic acid)
- Bases (i.e. drain cleaner)
- Fire extinguishers
- Other products with approval

Recycling used oil is preferred over disposal as HHW. Used oil can be recycled, free of charge, at any AutoZone location and most other quick oil change service locations. Note: Paint is not considered a hazardous waste. The best way to dispose of paint is to use it or recycle it.

COLLECTION LOCATION
Household Hazardous Waste Program - Rear lot of Pound Buddies Rescue
1300 E. Keating Ave., Muskegon
Phone: (231) 724-6001 - option 4
Hours: Second and fourth Friday of each month, May - Oct, 1 - 3pm
Late fall and winter collection is by appointment only. Appointments are made only for those who are not able to wait for a normal collection day.

If you have any questions regarding materials that you’d like to dispose of, please contact the Household Hazardous Waste automated line listed above. To learn more about health and safety information on household products, help identify potential sources of HHW in your home and to find ways to seek out alternatives, visit www.householdproducts.nlm.nih.gov. Also consider mail-back programs from www.thinkgreenfromhome.com or Zero Waste Boxes from Home Depot.

PAINT RECYCLING & DISPOSAL
If you find you have leftover latex/water-based paint that has never been frozen, contact one of these organizations for recycling:
